DID YOU KNOW?

Student Portal

The full-service Student Portal provides you with access to your academic administrative information, including:

- an online calendar,
- timetable,
- academic results,
- module content,
- financial account, and so much more!

Module Guides or Module Manuals

When you log into the Student Portal, the 'Module Information' page displays the 'Module Purpose' and 'Textbook Information' including the online 'Module Guides or 'Module Manuals' and assignments for each module for which you are registered.

Supplementary Materials

For certain modules, electronic supplementary material is available to you via the 'Supplementary Module Material' link.

Module Discussion Forum

The 'Module Discussion Forum' may be used by your lecturer to discuss any topics with you related to any supplementary materials and activities such as ICE, etc.

To view, print and annotate these related PDF documents, download Adobe Reader at following link below:

1. Introduction

An essential part of The Independent Institute of Education (The IIE) qualifications is to prepare students for the World of Work. The key differences between WIL modules and all other modules in a qualification are that, in the WIL module, you need to use all the knowledge and skills that you have developed in all your modules up to that point and further develop your abilities to reflect on yourself and your peers.

2. The Purpose of WIL

The purpose of having a WIL module in a qualification is to bring together all the knowledge and skills gained into one consolidated project thereby enabling you, the student, to integrate what you have learnt in several modules and demonstrate that you are able to apply it to solve a workplace type problem. Through the WIL Modules additional attention can be given to what SAQA calls Critical Crossfield Outcomes (CCFOs) or what is now more generally known internationally as global competencies.

CCFO1: Identify and solve problems in which responses demonstrate that responsible decisions using critical and creative thinking have been made.
CCFO2: Work effectively with others as a member of a team, group, organisation, community.
CCFO3: Organise and manage oneself and one's activities responsibly and effectively.
CCFO4: Collect, analyse, organise and critically evaluate information.
CCFO5: Communicate effectively using visual, mathematical and/or language skills in the modes of oral and/or written presentation.
CCFO6: Use science and technology effectively and critically, showing responsibility towards the environment and health of others.
CCFO7: Demonstrate an understanding of the world as a set of related systems by recognising that problem-solving contexts do not exist in isolation.
CCFO8: In order to contribute to the full personal development of each learner and the social and economic development of the society at large, it must be the underlying intention of any programme of learning to make an individual aware of the importance of:

- reflecting on and exploring a variety of strategies to learn more effectively.
- participating as responsible citizens in the life of local, national and global communities.
- being culturally and aesthetically sensitive across a range of social contexts.
- exploring education and career opportunities; and
- developing entrepreneurial opportunities.

The application of CCFOs or global competencies is largely context and discipline dependent.

© The Independent Institute of Education (Pty) Ltd 2026

3. Assessment of WIL

Assessment of Work-Integrated Learning (WIL) should be based on the design of the learning component of the programme, expectations, and stated outcomes. In addition, the assessment of WIL is governed by the principles in The IIE Assessment Strategy and Policy (IIE009).

Attendance of the weekly collaborative sessions with the lecturer and with your group is required. For distance students, your participation will be done using Microsoft Teams.

3.1 WIL Project

Your WIL project will consist of a collection of reports, evidence and materials that illustrate your skills and capabilities. The project includes reflecting on the learning process for one or both of the following purposes:

- To demonstrate student competence during a WIL process by putting together evidence of what they did, for example, documentation, background research, reflections, lessons learnt, etc. This would include all types of WIL, e.g. Project, Simulation, Work Placement.
- To keep in one place, some of the documents students may wish to show a potential employer as evidence of their learning.

Your submissions can include Microsoft 365 Office documents such as Visio, Project, PowerPoint, Excel and Word. The final submission of the portfolio will be after the 12th week in the semester – normally in week 13. Submission of the portfolio is done on *Arc*.

3.2 Peer Evaluations

Because reflection is such an important part of the WIL modules, students will be assessed on their reflections and insights gained while engaging in work-like activities. Students will be assessed on their ability to evaluate other students, or their peers (called a “peer evaluation”) in the group. All peer evaluations will be standardised across all the WIL modules and will be weighted differently across the various years. The students are to complete the peer evaluation questionnaire (Annexure B).

© The Independent Institute of Education (Pty) Ltd 2026

3.3 Presentations

All WIL modules require students to deliver a presentation describing their project or activity to their peers and lecturer(s). This will typically happen at the end of the project, i.e., towards the end of the WIL module. Each student in the group is to be evaluated as a group and individually for the presentation (Annexure D).

The presentation for contact students is done in front of the lecturer and peers, (either a standard presentation or EXPO style presentation) and for distance students, the presentation will be done over Microsoft Teams.

There are two main components of presentations, namely, a verbal component and a visual component. The **verbal** component focuses on the oral, or spoken, portion of the presentation during which aspects such as tone, delivery, language, and audience engagement are assessed.

The **visual** component includes all other communication aids that are used during the presentation, e.g., slides, video clips, posters, handouts, models, simulations, diagrams, websites, etc. The visual images created by the students themselves may be included here if they are relevant to the environment that is being represented. A typical example would be when a group of students are discussing the presentation of a proposal to a prospective client. Visual aids used in presentations should be used effectively. For example, PowerPoint slides should **support** the presentation but not **become** the presentation. Consequently, students need to think about both what they say, how they say it, what they use to support what they say, and how they are acting professionally and appropriately in a work-like environment.

The **EXPO-style presentation** serves as a formal showcase of the final product in a simulated industry environment. Unlike traditional linear presentation, the EXPO requires the group to maintain a professional “exhibit” where they must demonstrate their software live, engage with stakeholders in real-time, and defend their technical decisions throughout the showcase and interactive Q&A. To effectively communicate the solutions values, teams are required to provide a comprehensive *display including a physical board display, a supporting PowerPoint presentation, and a live functional demo of the system*. Students are encouraged to be creative with their exhibit setup to create an immersive, professional experience that related a high standard of work-readiness.

The type of presentation will be determined by the WIL Coordinator.

4. Qualification Summary

Qualification Name: Higher Certificate in Mobile Application and Web Development

Qualification Code: HMAW113

QUALIFICATION PURPOSE	EXIT LEVEL OUTCOMES
The purpose of the Higher Certificate in Mobile Application and Web Development is to provide students with the basic introductory knowledge, cognitive and conceptual tools and practical techniques for higher education studies in the field of mobile application and web development.	1. Introduce and apply problem-solving techniques to a mobile application and web development environment. 2. Conceptualize, design, develop and maintain basic mobile and web-based applications. 3. Apply design and user-experience principles to mobile and web-based interfaces. 4. Communicate and participate effectively and professionally as a member of a development team.

© The Independent Institute of Education (Pty) Ltd 2026

5. Module Summary

ITEM	DESCRIPTION
Qualification	Higher Certificate in Mobile Application and Web Development
Module Name	Work Integrated Learning 1 (WIL)
Module Code	XHAW5112/p/w
Module Purpose	The purpose of this module is for students to integrate theory and practice by offering students an opportunity to apply their foundational knowledge to a given case scenario.
Module Outcomes	Successful completion of this module requires the student to: MO01: Demonstrate an understanding of the roles and responsibilities of a junior web or mobile application developer. MO02: Design the user interface of a website and mobile application utilising user interface and experience design principles to meet requirements briefs. MO03: Develop and test a mobile application and website. MO04: Reflect on own learning and the development of employability skills through self and peer evaluations. MO05: Create comprehensive documentation for each required deliverable for the website and mobile application.
Credits	15 credits
Notional Hours	150 hours
Type of WIL	Simulation
Group/Individual Work:	Both
Tools & Resources	Microsoft® Office 365 Internet Kotlin React Native HTML, CSS and JavaScript Any other mobile app and/or web development software

© The Independent Institute of Education (Pty) Ltd 2026

Summary of Activities:	<u>Phase 1: Individual & Group Activity</u> Write a report outlining the choice of scenario, select the best idea from the individual reports and begin designing the website and mobile application. <u>Phase 2: Group Activity</u> Complete the design for the website and mobile application and complete the development of the mobile application, begin the development of the website. <u>Phase 3: Individual & Group Activity</u> Complete the development of the website and implement the website and mobile application. Update all parts, prepare a PowerPoint, video, demo and presentation.

© The Independent Institute of Education (Pty) Ltd 2026

6. Pacer

Each week, students need to communicate with the lecturer on the **progression** of their project, highlight constraints and problems (externally and within their group) and participate in class discussions. The Pacer describes the various milestones. A more detailed description of each milestone is given after the Pacer.

If you are a student studying in the DISTANCE mode, you must make use of collaborative tools such as Microsoft Teams, Zoom, etc., for communication between team members. Your lecturer will allocate team members to the groups, as it is unlikely that you will know other students studying the same module.

WEEK	MILESTONE	ACTIVITY	TASK
1	Introduction	Laying the foundation by the lecturer	• Introduction to each of the following: o Professional Conduct in the Workplace o WIL Manual o Project requirements o Project design specifications o Presentation specifications. • Explain the importance of: o Participation of the students. o Attendance of the students. o Responsibilities of the students. o Milestones/deliverables. • Groups of a maximum of three members will be established (start thinking about, do not get into groups now).

© The Independent Institute of Education (Pty) Ltd 2026

WEEK	MILESTONE	ACTIVITY	TASK
2 - 3	Task 1	Phase 1: Investigate and report on your idea of a web page and mobile application.	INDIVIDUAL • Write a report on your idea of a web page and mobile application based on the chosen scenario. Motivate why you have chosen your client and define user centred design. Include a colour palette and design a logo for your client.
4 – 5		Phase 2: Form groups and roles. Select the best logo, web page and mobile app design.	GROUP • Form your groups of 3. • Assign roles: appoint the team leader and team secretary. • Allocate tasks to various members of the group. • Group members to sign a group agreement.
		Phase 3: Select the best logo, colour scheme and idea.	GROUP • Review the requirements for the project. • Select the best idea, colour scheme and logo design based on each team members report or include a combination of all and create a combined logo design/colour scheme. • Research on mobile applications and website designs. • Document infrastructure that will be used throughout the project.
		Phase 3: Design the mobile app and design the website.	GROUP • Using FIGMA design low-fidelity wireframes for the mobile application and website.

© The Independent Institute of Education (Pty) Ltd 2026

6	Task 2	Phase 1: Complete wireframes.	GROUP • Using FIGMA design high-fidelity wireframes for the mobile application and website. (Include all screens, colour, images, logo, detail, information etc.)
7 - 9		Phase 2: Develop the mobile application.	• Develop the mobile application. • Code the application and align the look, feel and functionality to your wireframes. • The code for your project must be worked on in your GitHub repository. *(Lecturer to provide the GitHub link)*
10		Phase 3: Develop the website.	• *START* developing the website. (not completing in this part) • Complete HTML. • The code for your project must be worked on in your GitHub repository. *(Lecturer to provide the GitHub link)*

© The Independent Institute of Education (Pty) Ltd 2026

11 - 13	Task 3 (Final POE)	Phase 1: Complete development of the website. Presentation	GROUP • Complete the development of the website. • Complete CSS and JavaScript aspects. • Code the website and align the look, feel and functionality to your wireframes and mobile application. • Publish the website.
14		Phase 2: Presentation, PowerPoint, Video	GROUP Presentation and demonstration of your project, to your WIL co-ordinator and peers. EXPO presentation can also be done. *(This will be determined by your WIL co-ordinator)* *Create a detailed video presentation and explain the processes and design, all group members to be involved, talk/show faces.* Each individual member of the group must demonstrate and explain a section of the project. • The presentation must begin with the PowerPoint slide show and include a motivation for why the design was selected. • Demonstrate the functionality of the web page and the mobile app. *The above is for the video and in person presentation.*
14		Phase 3: Peer-evaluation	INDIVIDUAL Complete the peer-evaluations (one for each group member).
14		Phase 4: Report	INDIVIDUAL Submit the final report which contains Part 1, Part 2 and Part 3. Subheading for Updates should be included here if anything was updated from Task 1 and Task 2, explain this in detail and highlight it throughout the document that it stands out.

© The Independent Institute of Education (Pty) Ltd 2026

7. Scenario

7.1 Scenario 1: Pet Care & Training Academy

A local small- to mid-size enterprise (SME) would like to have a website and mobile app developed to advertise their business, receive requests for information from potential customers, as well as provide quotes to the potential customers for services requested.

The SME is an initiative by **Sarah Smith** to provide pet care education and practical animal training for pet owners, aspiring pet care professionals, and animal lovers. She noticed that many people own pets but have little knowledge of proper pet care, training, nutrition, and emergency care. Her academy provides practical skills that improve the wellbeing of pets while creating employment opportunities for people interested in working in the pet care industry or starting their own pet-related businesses.

Customers (individuals, families, pet sitters, kennel staff, veterinary assistants or aspiring entrepreneurs) can select from a range of courses available. They can select more than one course. The more courses they select, the more discount they receive.

- One course – no discount
- Two courses – 5% discount
- Three courses – 10% discount
- More than three courses – 15% discount

The company's name is **"Pawsitive Pet Academy"** Sarah states that the images, fonts and colours selected are very important and should reflect the caring, trustworthy and professional nature of her academy.

The six-month programmes take place over 12 weeks, and the short courses take six weeks. She does not yet have a logo but provides the following business history:

Pawsitive Pet Academy was established in **2023** and offers training courses in **Durban**. Hundreds of pet owners and aspiring pet care professionals have completed both the six-month Professional Development Programmes and the six-week Practical Skills Courses.

Six-month Courses:

- Canine Obedience Training
- Pet Grooming
- Animal Behaviour
- Pet Business Management

Six-week Short Courses:

- Puppy Care
- Pet First Aid
- Basic Dog Walking

© The Independent Institute of Education (Pty) Ltd 2026

Course Details

Canine Obedience Training

Course Fees: R1500

Purpose: To teach effective dog obedience and behavioural training techniques.

Content:
- Basic commands
- Leash training
- Behaviour correction
- Positive reinforcement
- Socialisation techniques

Pet Grooming

Course Fees: R1500

Purpose: To provide professional grooming skills for domestic pets.

Content:
- Coat care
- Bathing techniques
- Nail trimming
- Ear and eye cleaning
- Grooming equipment

Animal Behaviour

Course Fees: R1500

Purpose: To understand common pet behaviours and improve communication with animals.

Content:
- Animal psychology
- Reading body language
- Stress management
- Behaviour modification
- Enrichment activities

© The Independent Institute of Education (Pty) Ltd 2026

Pet Business Management

Course Fees: R1500

Purpose: To prepare learners to operate a successful pet-related business.

Content:
- Customer service
- Marketing
- Business planning
- Financial management
- Legal requirements

Puppy Care

Course Fees: R750

Purpose: To provide new puppy owners with essential care knowledge.

Content:
- Feeding
- Vaccinations
- Toilet training
- Exercise
- Socialisation

Pet First Aid

Course Fees: R750

Purpose: To provide emergency first aid knowledge for pets.

Content:
- Minor injuries
- CPR basics
- Poison awareness
- Heatstroke
- Emergency transport

© The Independent Institute of Education (Pty) Ltd 2026

Basic Dog Walking

Course Fees: R750

Purpose: To teach safe and professional dog walking practices.

Content:
- Walking equipment
- Handling multiple dogs
- Safety procedures
- Exercise routines

© The Independent Institute of Education (Pty) Ltd 2026

7.2 Scenario 2: Adventure Escape SA

A local small- to mid-size enterprise (SME) would like to have a web page and mobile app developed to advertise their business, receive booking requests from potential customers, as well as provide quotations for adventure experiences and activities.

The SME is an initiative by **Liam Daniels**, who has always had a passion for outdoor adventure and eco-tourism. He noticed that many families, tourists, schools, and corporate groups struggle to find one place where they can compare and book exciting outdoor activities. Adventure Escape SA brings together a variety of guided outdoor experiences that encourage teamwork, fitness, and a love of nature.

Customers (individuals, families, schools, tourists, and corporate groups) can select from a range of Adventure Packages and Individual Activities. Customers may select more than one booking. The more bookings they make, the greater the discount they receive.

- One booking – no discount
- Two bookings – 5% discount
- Three bookings – 10% discount
- More than three bookings – 15% discount

The company's name is **Adventure Escape SA**. Liam states that the images, fonts, colours and branding should reflect excitement, adventure and the beauty of the outdoors.

Adventure Escape SA was established in **2024** and operates throughout the **Western Cape**. The company provides professionally guided outdoor experiences for visitors of all ages and experience levels.

Adventure Packages:

- Ultimate Adventure Day
- Family Explorer Package
- Mountain Adventure Package
- Corporate Team Challenge

Individual Activities:

- Ziplining Adventure
- Kayaking Experience
- Rock Climbing Session

© The Independent Institute of Education (Pty) Ltd 2026

Course Details

Ultimate Adventure Day

Package Fee: R1500

Purpose: A full-day outdoor adventure featuring multiple exciting activities.

Includes:
- Guided hiking trail
- Ziplining
- Kayaking
- Lunch
- Safety briefing and equipment

Family Explorer Package

Package Fee: R1500

Purpose: A fun-filled outdoor experience designed for families.

Includes:
- Nature walk
- Obstacle course
- Picnic area
- Family games
- Guided wildlife spotting

Mountain Adventure Package

Package Fee: R1500

Purpose: A guided mountain adventure for outdoor enthusiasts.

Includes:
- Mountain hiking
- Scenic viewpoints
- Rock scrambling
- Safety equipment
- Professional guide

© The Independent Institute of Education (Pty) Ltd 2026

Corporate Team Challenge

Package Fee: R1500

Purpose: Team-building activities designed for businesses and organisations.

Includes:
- Team obstacle course
- Orienteering challenge
- Raft-building activity
- Leadership exercises
- Team awards

Ziplining Adventure

Fee: R750

Purpose: Experience breathtaking views while ziplining through the forest.

Includes:
- Safety briefing
- Equipment hires
- Professional instructors

Kayaking Experience

Fee: R750

Purpose: Paddle through scenic rivers and lakes.

Includes:
- Kayak and paddle
- Safety equipment
- Guided route

Rock Climbing Session

Fee: R750

Purpose: Learn climbing techniques on natural rock faces.

Includes:
- Climbing equipment
- Safety instruction
- Professional guide

© The Independent Institute of Education (Pty) Ltd 2026

7.3 Scenario 3: Gaming & Esports Arena

A local small- to mid-size enterprise (SME) would like to have a web page and mobile app developed to advertise their business, receive booking requests from potential customers, as well as provide quotations for gaming experiences and events.

The SME is an initiative by **Jason Naidoo**, an avid gamer who wanted to create a modern entertainment venue where gamers of all ages could enjoy the latest gaming technology, compete in esports tournaments, and socialise with friends. He noticed that many gamers lacked access to high-performance gaming equipment and organised competitive events, so he established an arena that caters for casual players, competitive gamers, schools, and corporate events.

Customers (individuals, families, schools, gaming clubs, and businesses) can select from a range of Gaming Packages and Individual Experiences. Customers may select more than one booking. The more bookings they make, the greater the discount they receive.

- One booking – no discount
- Two bookings – 5% discount
- Three bookings – 10% discount
- More than three bookings – 15% discount

The company's name is **Next Level Gaming & Esports Arena**. Jason states that the images, fonts and colours selected should reflect a modern, high-tech gaming environment with vibrant colours and exciting visuals.

Next Level Gaming & Esports Arena was established in **2023** and operates in **Johannesburg**. The arena hosts gaming events, esports tournaments, birthday parties, school outings and corporate team-building events.

Gaming Packages:

- Ultimate Gamer Pass
- VIP Gaming Experience
- Esports Training Package
- Birthday Party Package

Individual Experiences:

- Virtual Reality Experience
- Racing Simulator Challenge
- Escape Room Challenge

© The Independent Institute of Education (Pty) Ltd 2026

Course Details

Ultimate Gamer Pass

Package Fee: R1500

Purpose: Unlimited gaming access for a full day.

Includes:
- PC gaming
- Console gaming
- High-speed internet
- Snack voucher
- Tournament entry

VIP Gaming Experience

Package Fee: R1500

Purpose: Premium gaming experience with exclusive facilities.

Includes:
- Private gaming booth
- Premium gaming equipment
- Food and drinks
- Priority booking
- Personal gaming assistant

Esports Training Package

Package Fee: R1500

Purpose: Improve competitive gaming skills with professional coaching.

Includes:
- Strategy coaching
- Team communication
- Match analysis
- Practice sessions
- Performance feedback

© The Independent Institute of Education (Pty) Ltd 2026

Birthday Party Package

Package Fee: R1500

Purpose: Host a gaming-themed birthday celebration.

Includes:
- Reserved gaming area
- Multiplayer competitions
- Party decorations
- Catering
- Tournament prizes

Virtual Reality Experience

Fee: R750

Purpose: Explore immersive virtual reality games.

Includes:
- VR headset
- Choice of games
- Staff assistance

Racing Simulator Challenge

Fee: R750

Purpose: Race on professional driving simulators.

Includes:
- Racing simulator
- Choice of tracks
- Leaderboard competition

Escape Room Challenge

Fee: R750

Purpose: Solve puzzles and escape before time runs out.

Includes:
- Team challenge
- Themed escape room
- Digital scorecard

© The Independent Institute of Education (Pty) Ltd 2026

8. Project Requirements

Your mobile application and website must both provide the same functionality for the users. The users must be able to use either platform or be familiar with navigating either of them comfortably. Make use of various icons/menu items which users can use to navigate around the mobile app/web page. These must include:

- Home
- About Us
- Summary of the courses/packages/experiences *(based on your scenario choice, can be split into 2 here if chosen)*
    - List of each type here (separate page/screen for each course)
- Calculate Total Fees
- Contact Details

Home Page:

- Logo
- Brief explanation of what SME does
- Links to the summary pages *(one or two)*
- Images and other content to make the page look full and complete

About Us Page:

- History
- Vision
- Mission
- Goals
- Images and other content to make the page look full and complete

1st Summary Page:

- A list of the courses/packages/experiences. Each has a hyperlink to a page with the details for the course/package/experience.

2nd Summary Page *(if chosen to split into 2)*:

- A list of the courses/packages/experiences. Each has a hyperlink to a page with the details for the course/package/experience.

Each course/package/experience must have its own page/screen with the details, images and fees.

© The Independent Institute of Education (Pty) Ltd 2026

Calculate Total Fees

Include a form for the customer to enter their contact details (name, phone number and email address) as well as a checkbox list of the courses available. The customer can select one or more courses from the list.

The fees must be included next to each listed. A customer can complete the form to request a consultant to contact them to make a booking. A customer's selection will be stored in an array to provide the customer with an invoice (which includes the discounts applied) once they have verified what they would like to register for.

You must include a calculator button on the website and mobile application. When the customer clicks on the button, a total fee must be displayed. The total fee must include any discount that is applied, as well as VAT (15%) on the total amount. This is only a quoted fee and not a formal invoice for the customer.

Contact Details

The contact details for *the chosen scenario* must include the phone number, email address, social media links and physical addresses of the venues. Include a map for directions to each venue.

Additional to ensure to have:

Both the mobile app and the web page must include a drop-down menu and make use of a table somewhere and you must include error handling to verify the data types entered in the different fields/screens.

Note: use of knowledge from all your modules is important.

© The Independent Institute of Education (Pty) Ltd 2026

9. Tasks

9.1 Task 1

PHASE 1 INDIVIDUAL:

Pick a scenario (above) and based on your chosen scenario write a report on your proposed website and mobile application based on the chosen scenario. Motivate why you chose the scenario, who is the client, what does the client want and define what is user-centred design. You must design a logo which reflects the purpose of the business along with a colour palette. The logo and colour palette should also be explained. It should be eye-catching and not too complicated.

PHASE 1 INDIVIDUAL SUBMISSION:

Complete the above report in a word document, using the assignment template with appropriate headings and subheadings for the above.

Once complete, the document is to be converted into a **PDF** for hand in on **ARC**. *(Lecturer to ensure the submission point only accepts PDFs).*

MARK ALLOCATION

TASK 1 – PHASE 1	MARK
Report is well structured and correct flow as above, assignment template used, headings and subheadings.	4
Idea/scenario choice stated in document.	1
Why was the scenario chosen.	5
Who is the client, what does the client want.	5
User-centred design definition.	2
Colour palette and explanation	4
Logo design and explanation.	4
Total	**25**

© The Independent Institute of Education (Pty) Ltd 2026

PHASE 2 GROUP:

Get into your groups of 3. Assign roles: appoint the team leader and team secretary and any other roles you need to assign. Allocate tasks to each group member on what they will need to do going forward in all parts.

In a new word document for the group, using the assignment template start off this document with all the names, surnames and ST numbers of all group members and add all group members GitHub usernames. Add the above on roles and tasks into the document.

All group members are to sign the group agreement documentation. *(separate document and separate hand in to the group document).*

PHASE 2 GROUP SUBMISSION:

The team leader to hand in the above two documents.

Once complete, both above documents are to be converted into a **PDF** for hand in on **ARC**. *(Lecturer to ensure the submission point only accepts PDFs).*

MARK ALLOCATION

TASK 1 – PHASE 2	MARK
Group roles assigned.	2
Tasks allocated to each group member.	2
GitHub usernames provided.	2
Group agreement document signed by all group members	4
Total	**10**

© The Independent Institute of Education (Pty) Ltd 2026

PHASE 3 GROUP:

Review all the requirements for the project in your groups. Select the best idea/scenario, colour palette and logo based on each team members individual report. (Or create a combined logo design/colour palette as a group). Provide screenshots in a new word document of aspects you are choosing from each group member or combined new design. And explain why this was chosen, whose idea was which and which scenario was chosen overall if group members choose different ones in phase 1.

Research as a group the best design practices for websites and mobile applications as you prepare to create your own designs/wireframes. Research should be done on navigation, layout of screens, responsive design and user interface design. Do not forget to reference.

Document your chosen infrastructure that you and your group will be using throughout the project for the mobile application and website including GitHub.

All the above should be done in a new word document using the assignment template.

Using **FIGMA** design low-fidelity wireframes for the mobile application and website. Not all pages need to be design now, 6 pages each for a total of 12 pages need to be design now. The following screens need to be completed:

1. The home page
2. The about us page
3. The overview page
4. An individual page (one)
5. The calculate fees page
6. The contact us page

Once the wireframes are completed, add the Figma Link to the above document.

PHASE 3 GROUP SUBMISSION:

The team leader to hand in the above document. Ensure the following is in the document, explanation of choices with screenshots, research, infrastructure and Figma Link.

Once complete, the document is to be converted into a **PDF** for hand in on **ARC**. *(Lecturer to ensure the submission point only accepts PDFs)*.

Attendance will be marked.

© The Independent Institute of Education (Pty) Ltd 2026

MARK ALLOCATION

TASK 1 – PHASE 3	MARK
Decide on the best design, whose parts were chosen, why, and what scenario was chosen.	10
Screenshots of the above best design choices and final design of logo and colour palette.	10
Research done on websites and mobile applications on navigation, layout of screens, responsive design and user interface design.	15
Infrastructure listed for mobile application and website and GitHub.	5
Low-fidelity wireframes.	15
Total	**55**

OVERALL, MARK ALLOCATION TASK 1

TASK 1 – PHASE 1	TASK MARK	Weighting	Individual/Group
Phase 1	25	**25%**	I
Phase 2	10	**10%**	G
Phase 3	55	**55%**	G
Attendance	10	**10%**	I
Total		**100%**	

© The Independent Institute of Education (Pty) Ltd 2026

9.2 Task 2

PHASE 1 GROUP:

Using **FIGMA** design high-fidelity wireframes for the mobile application and website. All screens are to be completed fully with colour, images, logo, information and detail. 12 screens each for a total of 24 screens.

PHASE 2 GROUP:

Using the designs you created above, you must now develop the mobile application. Code the application and align the look, feel and functionality to your wireframes. This must be completed by the end of Task 2.

The code for the mobile application must be worked on as a group on your GitHub repository *(Lecturer to provide the GitHub link, NO private repositories allowed).*

PHASE 3 GROUP:

Start developing the website. *(You do not need to complete this in this task).* Complete the HTML of the website only. Ensure to have the home page, about us page, contact page, fees page done and at least one individual page done.

The code for the website must be worked on as a group on your GitHub repository *(Lecturer to provide the GitHub link, NO private repositories allowed).*

A group video demonstration will need to be done for the mobile application and website HTML.

Regular meetings must take place between team members. These could be physical or virtual meetings. Secretaries to take notes of these meetings: days, times, attendance. Each team member is accountable for their allocated tasks, and should they neglect these duties, then the other team members must report this to the WIL Coordinator for immediate intervention and note this in the peer-evaluation of the team member.

Attendance will be marked.

© The Independent Institute of Education (Pty) Ltd 2026

TASK 2 GROUP SUBMISSION:

The team leader to hand in a document with the following in:

1. Figma link with high-fidelity wireframes.
2. GitHub link for mobile application.
3. GitHub link for website.
4. YouTube video link (*unlisted*).

Once complete, the document is to be converted into a **PDF** for hand in on **ARC**. *(Lecturer to ensure the submission point only accepts PDFs).*

MARK ALLOCATION

TASK 2	TASK MARK	Weighting	Individual/Group
Phase 1: Wireframes	25	**30%**	G
Phase 2: Mobile application	100	**40%**	G
Phase 3: Website HTML	50	**20%**	G
Attendance	5	**5%**	I
Video demo	5	**5%**	G
Total		**100%**	

© The Independent Institute of Education (Pty) Ltd 2026

9.3 Task 3

PHASE 1 GROUP:

Complete the development of the website: CSS and JavaScript. Code the application and align the look, feel and functionality to your wireframes and mobile application. The website must then be published. Ensure to include a drop-down menu, error handling and a table where you see fit.

PHASE 2 GROUP:

Prepare a PowerPoint presentation that demonstrates the designs of the website and mobile application. Each team member must talk through at least one topic in the presentation *(video and in person presentation).*

A video presentation must be recorded and uploaded onto YouTube (unlisted). The same what is discussed in the video will be discussed in the in-person presentation/EXPO as *decided by your WIL Coordinator.*

Place this PowerPoint presentation in your GitHub repository.

Example below:

1. Discuss the design of the web page and mobile app and why the designs were chosen. (Team member 1)
2. Show the logo and explain why the team decided on the design. (Team member 3)
3. Explain the wireframe diagrams. (Team member 3)
4. A demonstration of the web page and mobile app. (Team member 2)

PHASE 3 INDIVIDUAL:

Complete the peer evaluation forms (one for each group member), find this in Annexure B.

PHASE 4 INDIVIDUAL:

Final report to combine all parts.

© The Independent Institute of Education (Pty) Ltd 2026

TASK 3 INDIVIDUAL SUBMISSION:

Your final submission is to be in the form of **ONE** report. Each team member must submit their own copy of the report. It must include the following using the assignment template:

1. All from Task 1: Your individual work and the group work from phase 2 and 3.
2. All from Task 2: The information and links handed in.
3. All links should be in the document, Figma, the website repository and the mobile application repository along with all YouTube links *(video links should be in the repositories as well). Your published website link as well.*
4. There should be a section in the document for updates, and this should detail all updates from Task 1 and Task 2 and any feedback you got from your WIL Coordinator:
    a. Detail the updates and changes.
    b. Highlight them throughout the document.
5. PowerPoint *(should be in the repository).*
6. Declaration of Authenticity (Annexure A).
7. Peer evaluations (Annexure B).

Note: all group members final report will be the same on the group work parts, it is just the first task phase of individual work, annexure A and annexure B that will be different.

Please have appropriate headings and subheadings throughout to differentiate between the parts.

ANNEXURE A – Plagiarism

Plagiarism occurs in a variety of forms. Ultimately, though, it refers to the use of the words, ideas or images of another person without acknowledging the source using the required conventions. The IIE publishes a Quick Reference Guide (available on The IIE Library website) that provides more detailed guidance, but a brief description of plagiarism and referencing is included below for your reference. It is vital that you are familiar with this information and the Intellectual Integrity Policy before attempting any assignments.

The IIE respects the intellectual property of other people and requires its students to be familiar with the necessary referencing conventions. Please ensure that you seek assistance in this regard before submitting work if you are uncertain.

If you fail to acknowledge the work or ideas of others or do so inadequately this will be handled in terms of the Intellectual Integrity Policy (IIE023 – [available in the library]) and/or the Student Code of Conduct policy (IIE026)– depending on whether or not plagiarism and/or cheating (passing off the work of other people as your own by copying the work of other students or copying off the Internet or from another source) is suspected.

Your campus offers individual and group training on referencing conventions – please speak to your librarian or ADC/ Campus Co-ordinator in this regard.

Reiteration of the Declaration you have signed:

1. I have been informed about the seriousness of acts of plagiarism.
2. I understand what plagiarism is.
3. I am aware that The Independent Institute of Education (IIE) has a policy regarding plagiarism and that it does not accept acts of plagiarism.
4. I am aware that the Intellectual Integrity Policy and the Student Code of Conduct prescribe the consequences of plagiarism.
5. I am aware that referencing guides are available in my student handbook or equivalent and in the library, and that following them is a requirement for successful completion of my programme.
6. I am aware that should I require support or assistance in using referencing guides to avoid plagiarism, I may speak to the lecturers, the librarian or the campus ADC/ Campus Co-ordinator.
7. I am aware of the consequences of plagiarism.

Please ask for assistance prior to submitting work if you are at all unsure.

© The Independent Institute of Education (Pty) Ltd 2026

Declaration of authenticity

I, _____ ID Number, _____ hereby declare that this portfolio, and any evidence included therein, contains my own independent work and that I have not received help from other groups.

I confirm that we have not committed plagiarism in the accomplishment of this work, nor have I falsified and/ or invented experimental data.

I accept the academic penalties that may be imposed for violations of the above.

ANNEXURE B – Peer Evaluation

This peer evaluation form must be completed for each member of the group and returned to the lecturer before the final Summative Project submission.

PEER EVALUATION
(NOT TO BE SHARED WITH TEAM MEMBERS)

GROUP NAME/NUMBER: ……. DATE: ……..
Please rate each of your project team members using the following scale detailed in the assessment criteria descriptions provided. Marks received from each member of the team will be added up and then averaged. Each team member must have a separate evaluation form completed.

Name of student being evaluated:		Never	Seldom	Frequently	Always
		0	**1**	**2**	**3**
The student's personal work					
1.	The student contributed good ideas that added value to the project.				
2.	The student performed their tasks in line with what was expected of them.				
3.	The student produced high quality work.				
4.	The student managed their own time well and met deadlines.				
5.	The student connected their own learning and skills to a real-world problem.				
The student's work as part of a team (when relevant)					
6.	The student accepted responsibility for a fair portion of the tasks.				
7.	The student was an enthusiastic member of my team.				
8.	The student helped others to be successful.				
9.	The student worked well with other members of the team.				
10.	The student showcased respect and dignity towards all members of the team.				
TOTAL:					**/30**

ANNEXURE C – Rubrics

Task 1 – Phase 1 Rubric

MODULE NAME:				MODULE CODE:	
WIL – Work Integrated Learning				XHAW5112	
TASK 1 – PHASE 1					
Marking Criteria	**Does not meet the required standard**	**Meets the required standard**	**Partially exceeds the required standard**	**Greatly exceeds the required standard**	**Feedback**
Report: Structure and Presentation **[4 Marks]**	Assignment template not used or report is poorly organised with missing or incorrect headings and subheadings.	Assignment template is used and heading and subheadings are included, but some are incorrect, missing or not aligned to the required content. The report may not be in the correct logical order.	Assignment temple is used with appropriate headings and subheadings. The report is logically organised.	Assignment template is used correctly and consistently throughout. Appropriate headings and subheadings are used effectively to organise the report, creating a professional document with seamless flow.	
	0 – 1 Marks	**2 Marks**	**3 Marks**	**4 Marks**	
Scenario Selection **[1 Mark]**	The chosen scenario is not clearly identified.	The chosen scenario is correctly identified and stands out.			
	0 Marks	**1 Mark**			

© The Independent Institute of Education (Pty) Ltd 2026

Marking Criteria	Does not meet the required standard	Meets the required standard	Partially exceeds the required standard	Greatly exceeds the required standard	Feedback
Motivation for Scenario Choice **[5 Marks]**	Little or no explanation is provided, or the explanation is unrelated to the chosen scenario.	A reason for choosing the scenario is provided, but it is vague, lacks detail or does not clearly justify the choice.	An explanation is provided with relevant reasons that justify why the scenario was selected.	A detailed and well-explained motivation is provided, with multiple relevant reasons that clearly justify why the scenario was chosen.	
	0 – 2 Marks	**3 Marks**	**4 Marks**	**5 Marks**	
Client and Requirements **[5 Marks]**	Client is not identified by name, or the explanation of what the client wants is missing or incorrect.	Client is identified and named, but the explanation of what the client wants is limited or incomplete.	Client is clearly identified, and what the client wants is explained accurately with sufficient detail.	Client is clearly identified, and a comprehensive explanation of what the client wants demonstrates a thorough understanding of the clients requirements.	
	0 – 2 Marks	**3 Marks**	**4 Marks**	**5 Marks**	
User-Centred Design **[2 Marks]**	Definition is missing or incorrect.	A basic definition is provided but is incomplete or lacks clarity.	A definition is provided that demonstrates a good understanding of user-centred design.	An accurate definition is provided, demonstrating a thorough understanding of user-centred design and its purpose.	
	0 Marks	**1 Mark**	**1.5 Marks**	**2 Marks**	

© The Independent Institute of Education (Pty) Ltd 2026

Marking Criteria	Does not meet the required standard	Meets the required standard	Partially exceeds the required standard	Greatly exceeds the required standard	Feedback
Colour Palette **[4 Marks]**	Colour palette is missing, inappropriate or not explained.	A colour palette is provided, but some colours are unsuitable or the explanation is limited or unclear.	An appropriate colour palette is selected, and the explanation justifies the colour choices.	A well-planned colour palette is selected, and the explanation demonstrates how the colours support the business identity and branding.	
	0 – 1 Marks	**2 Marks**	**3 Marks**	**4 Marks**	
Logo Design **[4 Marks]**	Logo is missing or unrelated to the business with little or no explanation.	A logo is created, but it has limited relevance to the business, or the explanation is basic or incomplete.	A suitable and original logo is created with a clear explanation of how it represents the business.	A creative and original logo is created with a comprehensive explanation demonstrating how the design reflects the purpose and identity of the business.	
	0 – 1 Marks	**2 Marks**	**3 Marks**	**4 Marks**	
					TOTAL: 25

Task 1 – Phase 2 Rubric

MODULE NAME:				MODULE CODE:	
WIL – Work Integrated Learning				XHAW5112	
TASK 1 – PHASE 2					
Marking Criteria	**Does not meet the required standard**	**Meets the required standard**	**Partially exceeds the required standard**	**Greatly exceeds the required standard**	**Feedback**
Group Roles **[2 Marks]**	Roles are not assigned, section missing.	The 2 required roles are assigned but other roles of the group members are missing or unclear.	The 2 required roles are assigned, and other roles are mentioned but may not be clearly related to a group member.	All required roles and any additional roles are assigned appropriately and are clear who the group member is assigned.	
	0 Marks	**1 Mark**	**1.5 Marks**	**2 Marks**	
Task Allocation **[2 Marks]**	Tasks are missing and not allocated.	Tasks are allocation to all group members, but some tasks are unclear or lack detail.	Clear tasks are allocated to every group member showing what each person is responsible for, but only for Task 1 and 2.	Tasks are clearly allocated to every group member, with responsibilities divided fairly and covering all required project work from all parts.	
	0 Marks	**1 Mark**	**1.5 Marks**	**2 Marks**	

© The Independent Institute of Education (Pty) Ltd 2026

Marking Criteria	Does not meet the required standard	Meets the required standard	Partially exceeds the required standard	Greatly exceeds the required standard	Feedback
GitHub Usernames **[2 Marks]**	GitHub usernames are missing or are incorrect.	GitHub usernames are provided, but one or more is missing from group members.	GitHub usernames for all group members are provided.	GitHub usernames are provided for all group members correctly and clearly linked to a member.	
	0 Marks	**1 Mark**	**1.5 Marks**	**2 Marks**	
Group Agreement **[4 Marks]**	Group agreement is missing or details are missing provided by group members.	Group agreement is submitted, but some required information or signatures are missing.	Group agreement is completed with all required information and almost all group member signatures, not a PDF.	Group agreement is fully completed, with all required information and signatures from every group member and a PDF was submitted.	
	0 – 1 Marks	**2 Marks**	**3 Marks**	**4 Marks**	
					TOTAL: 10

Task 1 – Phase 3 Rubric

MODULE NAME:				MODULE CODE:	
WIL – Work Integrated Learning				XHAW5112	
TASK 1 – PHASE 3					
Marking Criteria	**Does not meet the required standard**	**Meets the required standard**	**Partially exceeds the required standard**	**Greatly exceeds the required standard**	**Feedback**
Design Selection **[10 Marks]**	Final design choices are missing or unclear. Little or no explanation is provided, and it is not clear whose ideas were selected.	Final design choices are identified, but some information is missing (scenario, logo, colour palette, ownership or reasons). Explanations are brief.	Final scenario, logo and colour palette are identified. Whose ideas were chosen and reasons for the choices are included.	Final choices are clearly presented, whose ideas were chosen is shown, combined designs (if any) are explained, and the section is well organised with clear headings.	
	0 – 4 Marks	**5 Marks**	**6 - 8 Marks**	**9 - 10 Marks**	
Screenshots of Design Choices **[10 Marks]**	Few or no screenshots are included.	Some required screenshots are included, but others are missing or unclear, too small or blurry.	All required screenshots are included and support explanations.	All screenshots are clearly labelled, well organized and easy to match the explanations.	
	0 - 4 Marks	**5 Marks**	**6 - 8 Marks**	**9 - 10 Marks**	

© The Independent Institute of Education (Pty) Ltd 2026

Marking Criteria	Does not meet the required standard	Meets the required standard	Partially exceeds the required standard	Greatly exceeds the required standard	Feedback
Research **[15 Marks]**	Little or no research. Most topics or references are missing.	Some required topics are researched, but important topics or references are missing.	All required topics are research with appropriate references.	All required topics are researched, clearly organised with headings, include examples, and explained how they will be used in the project.	
	0 – 5 Marks	**6 - 7 Marks**	**8 - 11 Marks**	**12 - 15 Marks**	
Infrastructure **[5 Marks]**	Infrastructure is missing, incorrect and GitHub is not included.	Some infrastructure is listed, but important items are missing.	Infrastructure for the website, mobile application and GitHub is listed correctly.	Infrastructure is listed, the purpose of each item is explained, and the information is clearly organized.	
	0 - 2 Marks	**3 Marks**	**4 Marks**	**5 Marks**	
Low-Fidelity Wireframes **[15 Marks]**	Few wireframes are completed, required screens are missing, Figma link is missing or the designs are not low fidelity (e.g. use of colours, images and content)	Most required wireframes are completed, but some screens are missing, incomplete or include elements that should not appear in a low fidelity wireframe.	All 12 required low fidelity wireframes are complete using simple placeholders, basic shapes and limited text. No colours, detailed images or content used. A working Figma link is provided.	All 12 required low fidelity wireframes are completed. Layouts are consistent, placeholders and labels used correctly, navigation is clear, no colours, detailed images or content are included and the Figma link works correctly.	
	0 - 5 Marks	**6 - 7 Marks**	**8 – 11 Marks**	**12 - 15 Marks**	
					TOTAL: 55

Task 2 – Phase 1 – High Fidelity Wireframes Rubric

MODULE NAME:				MODULE CODE:	
WIL – Work Integrated Learning				XHAW5112	
TASK 2 – Phase 1					
Marking Criteria	**Does not meet the required standard**	**Meets the required standard**	**Partially exceeds the required standard**	**Greatly exceeds the required standard**	**Feedback**
High-Fidelity Wireframes **[5 Marks]**	Many required screens are missing, incomplete or do not represent the required system/screen size.	Most required screens are completed, but some screens are missing or incomplete.	All 24 required screens are completed for both website and mobile application.	All 24 required screens are completed, clearly labelled, organised logically and accurately represent the complete system.	
	0 – 2 Marks	**3 Marks**	**4 Marks**	**5 Marks**	
Colour and Branding **[5 Marks]**	Colours are missing or unsuitable for the business.	Colours are used, but are inconsistent, or applied to only some screens.	Colour palette is used consistently across all screens.	Colour palette is used consistently across all screens, strengthens the business identity and creates a professional appearance.	
	0 - 2 Marks	**3 Marks**	**4 Marks**	**5 Marks**	
Logo and Images **[5 Marks]**	Logo or images are missing or unrelated to the business.	Logo and images are included but are inconsistent or used only one some screens.	Logo and suitable images are used across all screens.	Logo and images are used consistently, support the business identity and overall appearance of the designs.	
	0 - 2 Marks	**3 Marks**	**4 Marks**	**5 Marks**	

© The Independent Institute of Education (Pty) Ltd 2026

Marking Criteria	Does not meet the required standard	Meets the required standard	Partially exceeds the required standard	Greatly exceeds the required standard	Feedback
Screen Content **[5 Marks]**	Most required content is missing or incorrect.	Some required content is included, but several sections are incomplete or missing.	All required information is included on the appropriate screens.	All required information is included, organised clearly, and the screens appear complete and realistic.	
	0 – 2 Marks	**3 Marks**	**4 Marks**	**5 Marks**	
Buttons, Navigation and Links **[5 Marks]**	Navigation is missing, confusing or incomplete. Buttons and links are missing from most screens. Not appropriate for the screen.	Basic navigation is included, but some buttons or links are missing or inconsistent.	All required buttons, menus and links are included, and navigation is clear across all screens.	Navigation is consistent and intuitive across the website and mobile application, with all buttons and links placed logically and working as expected in the prototype.	
	0 – 2 Marks	**3 Marks**	**4 Marks**	**5 Marks**	
					TOTAL: 25

© The Independent Institute of Education (Pty) Ltd 2026

Task 2 – Phase 2 – Mobile Application Rubric

MODULE NAME:				MODULE CODE:	
WIL – Work Integrated Learning				XHAW5112	
TASK 2 – Phase 2					
Marking Criteria	**Does not meet the required standard**	**Meets the required standard**	**Partially exceeds the required standard**	**Greatly exceeds the required standard**	**Feedback**
Look and Feel **[15 Marks]**	Application differs significantly from the wireframes. Colours, layout and branding are missing or inconsistent.	Application generally matches the wireframes, but several screens or design elements differ.	Application closely matches the wireframes across all screens with consistent colours, layout and branding.	Application accurately matches the wireframes across all screens with a consistent, polished design and user experience.	
	0 – 5 Marks	**6 - 7 Marks**	**8 - 11 Marks**	**12 - 15 Marks**	
Appropriate for Mobile **[5 Marks]**	Layout is unsuitable for mobile devices or difficult to use.	Application is usable on mobile, but some layouts or controls are not appropriate.	Application is suitable for mobile devices with clear layouts, controls and navigation.	Application is well designed for mobile devices with consistent layouts, intuitive navigation and a user-friendly interface.	
	0 - 2 Marks	**3 Marks**	**4 Marks**	**5 Marks**	
Runs on the Emulator **[10 Marks]**	Application does not run or crashes. Most functionality cannot be tests.	Application runs with errors or some functionality cannot be tested.	Application runs successfully on the emulator, and all main functions can be tested.	Application runs successfully without errors, performs reliably and all required functionally can be demonstrated.	
	0 – 4 Marks	**5 Marks**	**6 - 8 Marks**	**9 - 10 Marks**	

© The Independent Institute of Education (Pty) Ltd 2026

Marking Criteria	Does not meet the required standard	Meets the required standard	Partially exceeds the required standard	Greatly exceeds the required standard	Feedback
Home Page **[10 Marks]**	Home page is missing or most required content is not included.	Home page is completed but some required content, images or navigation are missing.	Home page includes all required content, images, links and navigation.	Home page includes all required content, is well organised visually appealing and navigation is clear and easy to use. Logo is present. The page looks full and complete.	
	0 – 4 Marks	**5 Marks**	**6 - 8 Marks**	**9 - 10 Marks**	
About Us Page **[5 Marks]**	About us page is missing or most required content is not included.	About us page is completed but some required content or images are missing.	About us page includes all required information, images and navigation.	About us page includes all required information, is well organized with the necessary heading and subheadings. The page looks full and complete.	
	0 - 2 Marks	**3 Marks**	**4 Marks**	**5 Marks**	
Contact Us Page **[5 Marks]**	Contact page is missing or most required information is not included.	Contact page is completed but some required contact details, maps or links are missing.	Contact page included all required contact details, maps, social media links and navigation.	Contact page included all required information (number, email, physical address, maps and social media), is well organized, easy to use and all links function correctly. Page looks full and complete.	
	0 - 2 Marks	**3 Marks**	**4 Marks**	**5 Marks**	

© The Independent Institute of Education (Pty) Ltd 2026

Marking Criteria	Does not meet the required standard	Meets the required standard	Partially exceeds the required standard	Greatly exceeds the required standard	Feedback
Calculate Total Fees Page **[20 Marks]**	Most required functionality is missing or does not work correctly.	Basic calculator works, but several required features (customer details, arrays, VAT, discounts, invoice or validation) are missing or incomplete.	Customer details, course selection, arrays, fee calculation, VAT, discounts, invoice and input validation are implemented correctly and function as required.	All required functionality works correctly, with accurate calculations, input validation, support for multiple course selection checkboxes, and an easy-to-use interface. Arrays used correctly.	
	0 – 8 Marks	**9 - 10 Marks**	**11 - 15 Marks**	**16 - 20 Marks**	
Summary and Individual Pages **[20 Marks]**	Most required pages are missing or incomplete. Navigation between pages is missing or incorrect.	Most required pages are completed but some information, navigation or links are missing.	All required summary and individual pages are completed with the required information, images, fees and navigation.	All required pages are completed, consistently designed, easy to navigate, include all required information and accurately represent the selected scenario. Use of lists as well.	
	0 – 8 Marks	**9 - 10 Marks**	**11 - 15 Marks**	**16 - 20 Marks**	
GitHub **[10 Marks]**	Repository is missing, inaccessible (0) or shows little evidence of development.	Repository is available but commits are limited or contributions are inconsistent.	Repository is used throughout development with regular commits from the group.	Repository is well maintained with regular commits, meaningful commit messages and clear contributions from all group members.	
	0 – 4 Marks	**5 Marks**	**6 - 8 Marks**	**9 - 10 Marks**

ANNEXURE E – Professional Conduct in the Workplace

PROFESSIONAL CONDUCT IN THE WORKPLACE

© The Independent Institute of Education (Pty) Ltd 2026

1. Introduction

This learning unit is designed to highlight transferable skills which are necessary to succeed in the These skills include teamwork, critical thinking, high-level problem-solving, communication, self-management, and career readiness.

After completing this learning unit, you should be able to:
Conduct yourself professionally in the workplace.
Apply appropriate interpersonal skills in a professional context.
Develop yourself and promote your career.

There are short videos and links embedded throughout the learning unit directing you to more readings on important topics. These are designed to give you a deeper understanding of some of the terms and terminology that you will encounter in this learning unit, as well as the circumstances that you may encounter as you enter the workplace.

2. Progressing from student-life to work-life

In the South African economy, employment opportunities are available in a range of very different organisations such as local government, public administration, the banking industry, private business, non-profit organisations and small, medium and micro-sized enterprises (SMME). Each of these potential employers has its own rules, expectations and organisational cultures. This means that you, as a new employee, would need to adapt and fit into this new environment.

The Future: How to create opportunities from change

Source
Run time: 1:50

As you move into the workplace, it is your responsibility to manage yourself. When you were at school, somebody actively looked after you (your parents and teachers); at university, you were encouraged to explore your identities and given more freedom of choice in your lives. However, you still had parents and lecturers who provided support and guided you.

Once you enter the world of work, you are expected to behave in certain ways and be professional, efficient and effective in your role as an employee. Any actions you choose to follow will have consequences (both good and bad). It is your responsibility to ensure you follow any instructions from your line managers and take control of your own performance and reputation.

© The Independent Institute of Education (Pty) Ltd 2026

Your first line of responsibility before moving into the workplace will be to secure interviews for yourself. Compile your curriculum vitae (CV) and include some specific information which would showcase your abilities and your educational achievements. Some information is considered irrelevant and should be excluded from your CV for various reasons. There are many CV templates on the internet which you can choose from. If you are applying for jobs which are predominantly in a corporate environment, then your CV should be simple and reflect the formality of the company. However, if you will be applying for jobs with an arty or creative edge, then your CV can be much more elaborate and colourful.

You could hear of potential jobs through various channels, such as:
Word of mouth – someone you know may hear about a vacancy and pass on the information.
Media – newspapers and the internet have thousands of jobs advertised.
LinkedIn – create your own professional profile and upload your CV. Make connections and network in your chosen field.
Recruitment companies.

It is important to be professional in your job search, and this includes professional email addresses. Email addresses which do not portray you as an employee with integrity should not be used. An email address such as IwantToParty@gmail.com or tequila@yahoo.com will not give a good first impression of you and may be considered junk mail and never be seen by the person to whom the email is addressed. Choose a professional-looking email address, e.g. Vusi.Molefe@gmail.com.

Each year, you will have a meeting with your line manager or someone who manages your performance. This is normally called a Performance Review and will have a number of Key Performance Areas (KPAs) against which your performance is measured. You will be notified of these when you enter the workplace and relate to the job profile that you work in. These are reviewed annually as you grow in your job and take on more responsibility. Your salary increases will most probably be based on your KPA score.

One of the most important areas for you to attend to is meeting deadlines. Businesses function on the timeous delivery of their products and services, and in most cases, the deadlines cannot be extended. Think about your salary, you expect to be paid at the same time every month. What would happen if someone missed a deadline and you were paid a week later, or even worse, never received it? Often, the work you will be required to complete by a deadline needs to move on to another person or department, and if you miss your deadline, then you are holding up the process and putting those other employees under pressure to meet their deadlines.

© The Independent Institute of Education (Pty) Ltd 2026

3. Behaviour in the workplace

Your new employer would expect you to conduct yourself professionally and ethically from the first day.

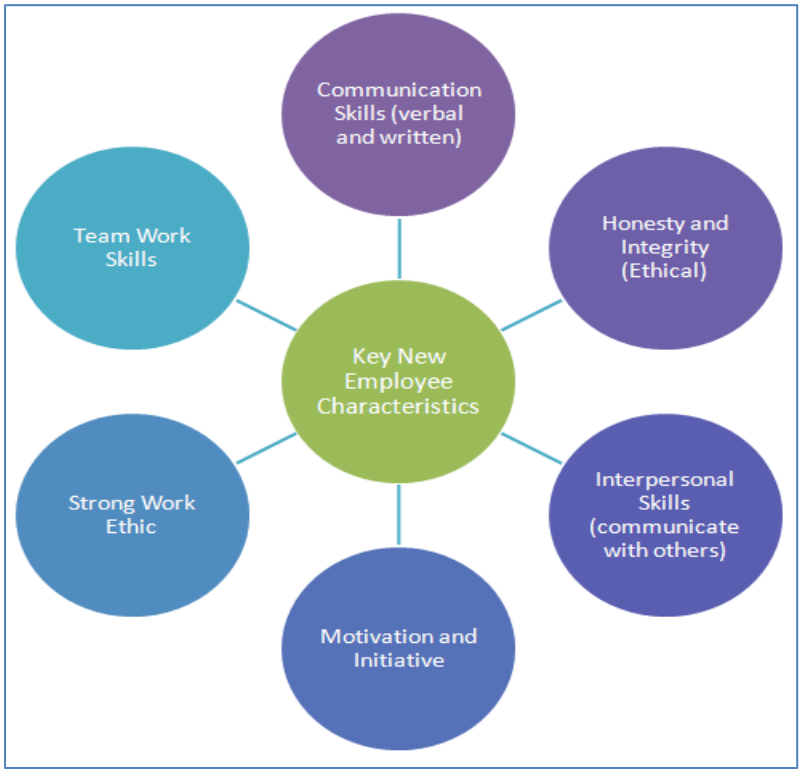

Professionalism at the workplace

Source
Run time: 1:44

Most employers will have an induction programme for new employees, where you will get an introduction to the sections and operations of your new environment. It is a good idea to be prepared and make the most of learning about your new work environment during the induction. But, there is far more that you would need to do and learn. This will help you to understand what is expected of you and what is seen as appropriate behaviour. When you start working in a new position, make sure you know what the organisation's culture is.

The more you understand your new work environment, the sooner you will be able to fit right in.

Source

© The Independent Institute of Education (Pty) Ltd 2026

These key skills are also referred to as interpersonal skills or soft skills in the workplace. Let us look a bit closer at each of these key skills:

Communication skills

Communication in the workplace must always be professional. It can never be on the same informal level as at home or with friends. If your office environment has a policy that English is the language of business, adhere to it. Professional communication at work includes language proficiency, **r**eading, writing, problem-solving, and the use of information technologies.

Both written and oral communication in the workplace must always be professional. There are many books and articles written on the dos and don'ts of office communication. Here are some of the most important ones:

Communication Dos and Don'ts:

DO	DON'T
Develop your "business vocabulary":	Never use poor grammar or slang.
Texting in the workplace should only be done when it is absolutely necessary. This article on texting language. May be helpful on how to do this.	Never use the abbreviated language that you use with your friends on social media.
Listen to the presentations of your managers and research terms and terminology pertaining to your environment with which you are not familiar.	Refrain from using inappropriate phrases or any form of sexist, racist or heteronormative language.
Make use of a when typing emails, reports and letters.	Do not let anger or frustration reflect in the tone of your verbal or written communication. Do not use CAPITAL LETTERS, bold font, slang or emoticons to indicate frustration.
Use the correct letterheads, stationery and templates for official business communication and refrain from using them for personal use.	Never gossip or constantly complain about trivial matters or use abrasive language.

But what about nonverbal communication in the workplace? Actions such a facial expression, eye contact, gestures and posture communicate far more than you could realise. It could even include the way you dress. Together with verbal communication, nonverbal communication may be used as an important cue to strengthen the message. As a new employee, you should be aware of how your nonverbal cues can be interpreted.

© The Independent Institute of Education (Pty) Ltd 2026

Consider the following scenario:
Your manager asks you to compile a report and then present this report at a meeting. This task provides you with a number of opportunities to showcase your abilities, work ethic and performance. What choices would you need to make?

There are many considerations, but those listed below are some of the important ones:

- Communication:
    - The language used in your report. Is it suitable for the audience you will be presenting to?
    - Verbal and non-verbal communication skills
- Appearance:
    - The clothes you will be wearing to do the presentation. This should again be appropriate for the audience and the occasion.
    - It is not advisable to chew gum in an office environment if you are expected to have face-to-face meetings with people or give presentations.

If you are unsure of what you are expected to do, then ask for assistance. Your manager would rather you do this than have a presentation which is not fit for purpose or lacks vital information.

Meetings

Conducting yourself professionally and actively participating in business meetings would require a good understanding of the different types of meetings, their purpose and structure. The business environment generally has regular meetings for a range of business reasons.

Some examples are:

- Staff meetings;
- Product meetings;
- Stakeholder meetings;
- Committee meetings.

Communication in these meetings follows strict meeting protocols. It is also a good idea to take notes during meetings, especially if they are used to allocate work and responsibilities.

Telephone Etiquette

You will be required to be professional in your telephone communication. It is good business practise to state your name when answering your phone. Be polite and take notes if you are being requested to do tasks or pass on a message. Getting the message communicated correctly is an important function in the workplace. Knowledge of Business phone etiquette will assist you in dealing with clients, suppliers and associates in a professional way that will promote both your image and your organisation's reputation.

© The Independent Institute of Education (Pty) Ltd 2026

Another important consideration is your phone's ringtone. Keep it simple and professional.

Working with others: teamwork and group work

At work, you will be required to work with people, either formally in teams or informally by sharing office environments. Your success will depend on cooperation with individuals and groups. You need a special set of skills when working on a one-on-one situation or in teams. This will require people skills:

Creating Value through People Skills (Source)

To be a good team member, you would need to:

- Build a good rapport with other team members;
- Improve your listening skills;
- Develop speaking and presentation skills;
- Communicate to different audiences;
- Respect diversity;
- Give and receive criticism more effectively without being offensive or taking the criticism personally;
- Be assertive and diligent;
- Resolve conflict and deal with difficult people;
- Develop negotiation skills;
- Build leadership skills.

Many of these skills will be developed over time as you build experience in the workplace and receive further training.

© The Independent Institute of Education (Pty) Ltd 2026

Office politics and social protocols

All offices and organisations will experience office politics. There are many reasons why most work environments go through stages where office politics can cause problems. There are many reasons why these problems may surface and why this should be carefully managed.

Some of the reasons include:

- Employees aspiring to be noticed;
- Employees overstep and cross boundaries and their authority;
- Employees lack supervision and control in the workplace;
- Gossip at work leads to poor office politics;
- Jealous colleagues (professional jealousy) or people who perceive others as a threat.

As a professional, you are responsible for managing difficult situations: How can professional jealousy be prevented?

You will be spending many hours at work. It is, therefore, important that these situations be handled with great care and professionalism to prevent conflict and to keep office relationships professional.

Dealing with differences in opinion and conflict is an important life skill to have, which can be effectively used in the workplace. It is important to regulate your emotions and not take other individuals' opinions personally. Do not email or phone anyone until you have thought through your response carefully and remove all emotions out of your communication. If you do not, you run the risk of inflaming the situation and coming across as volatile and unprofessional.

Professional networking

Networking with co-workers in the organisation and with professional bodies helps you to grow and develop your skills and career and build communities of practice. Social networking, such as creating professional profiles on LinkedIn, helps to open up opportunities, create awareness and build your professional portfolio.

4. Ethics, trust, honesty and integrity

Ethical behaviour means you are doing the right thing for the right reasons. e.g. not taking home office stationery, using the company's internet connectivity for personal use, gossiping about fellow employees, harassment and discrimination of any kind. There are various offences you could commit in the workplace for which you could possibly be fired. Many are related to ethics, such as stealing, revealing confidential information, insubordination, dereliction of duty, harassment and discrimination, etc.

You want to trust your employer and believe that they will always have your best interests at heart. Your professional conduct will create a mutual trust relationship at the organisation. This requires ethical behaviour, knowing what is right and acting accordingly. Ethics is doing the right thing even when no one is watching.

© The Independent Institute of Education (Pty) Ltd 2026

The following are some pointers that will guide you towards creating this trust relationship:

- Never exaggerate on a Curriculum Vitae or add skills and qualifications that you do not have.
- Be punctual for meetings and appointments.
- Meet deadlines.
- Do what you said you will do and communicate immediately if you are not able to honour your commitments.
- Conform to the organisational culture and stick to the “rules”.
- Be open and honest with your colleagues and manager if something goes wrong. Do not lie.
- Respect your organisation, their resources and management.
- Sensitive information must be kept confidential. This includes any information about your salary or other forms of remuneration. You may not discuss with other employees how much you earn.
- Do not use the organisation’s resources such as stationery, internet connectivity and telephones for personal purposes.

5. Managing professional spaces and appearances

One of the biggest adjustments that is required when bridging the stage of being an informal student to a professional in the workplace is the dress code. Would you trust a Bank Manager who wears dirty shoes, chews gum, and uses informal language or slang? You must dress for success – you must look the part if you want to succeed. Dressing appropriately will boost your self-confidence. Read this article for more information: 20 Personal Appearances Tips for the Workplace.

In open office environments, it is particularly important to consider your colleagues in the shared space. These are some of the areas that can cause conflict:

- Noise - Do not talk too loudly, as you may distract your colleagues from their work. It is very difficult to concentrate when there is too much noise.
- Temperature - Do not adjust the temperature of the air conditioner. These are normally set at a standard temperature which is considered comfortable for the majority of people. This is around 23 degrees. If you feel too hot or cold, then plan to adjust your personal space (an extra jersey, lap blanket, or a desk fan) to your comfort level.
- Neatness - Keep your office area neat and organised. You may be permitted to personalise your area with photographs or other small items. Keep these to a minimum so they do not intrude on your workspace. All décor must be appropriate and portray a professional image.
- Smells – Keep the smelly food for home. Your colleagues may not appreciate your tuna or garlic-laced lunch.

© The Independent Institute of Education (Pty) Ltd 2026

6. Behaviour and conduct outside of working hours

Your conduct outside of office hours is as important as your conduct during working hours. This is also true for your online behaviour. Recruiters and companies often scrutinise online social media and behaviour when they decide on the suitability of a candidate. If you are irresponsible and post inappropriate pictures or comments, it may cost you your job.

The following are actions on social media that may have dire consequences for you as an employee:

- Making negative comments about your manager, your colleagues or organisation;
- Making derogatory comments or commenting on controversial social media posts;
- Mentioning salaries, complaining about your salary or new job offers;
- Sharing photos of wild parties, alcohol consumption and nudity.
- Making threats online, even jokingly

The conduct and standards expected for online communication are often referred to as Netiquette.

7. Contracts and legal matters

When you start working either permanently, as an intern or as a contract employee, you need to know what your responsibilities and rights are in advance. The very first document you will be expected to sign will be your conditions of service for employment. These are normally standard for colleagues in the same or similar positions, but could have been customised to include additional responsibilities as the job requires. Read your contracts carefully before signing them, as by signing them, you acknowledge that you are accepting the tasks specified. Ask if you do not understand certain clauses and information.

8. In Closing

It is better to be well prepared and have the appropriate expectations when you enter the job market. In this learning unit, we introduced some areas that will assist you in this preparation. It is also important to realise that we live in a fast-paced world where technology, information and situations constantly change.

In summary, make sure that you always stay informed and well-prepared, keep records and conduct yourself in a way that will grow your opportunities to your long-term advantage.
